REPRESENTATIVE IN Buenos Ayres
Edw. F. Powers.

The above Company have acquired the Rights, Patents, Concessions, Goodwill and Interests of Frederick Allan Gower and Benjamin D. Manton, as existing under a contract between them, dated July 20th, 1880, in the City of Providence, Rhode Island, in the U. States of America.

It is now the purpose of this Co pany to extend Telephonic Communication to the Public of the City and Province of Buenos Ayres on a more thorough and systemat c plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell Loudspeaking Telephone with appurtenances for same of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of opefatives and assistants, hope t attain such success as will bring them to the front as the First Telephone Company of the River Plate.

When a commercial, and even a social, community have the full benefits of a well-organized Telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500,000 instruments are in use. In fact, it has come into such universal use there that its loss would be most severely fe t by the Public generally. The Company will introduce into this city the American system in its entirety.

The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put in a satisfactory condition, at the same time he begs to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.

As Buenos Ayres is a city of magnificent distances, the Gower-Bell Telephone will be found in its w rking the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self-evident qualities that it was specially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 15,000 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.

The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.

Subscriptions to Exchanges, $175 per month.

Private Lines, special terms on application.

Any further information the Local Representative would be pleased to give personally or by letter.

TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-wooled rams; it has kept them entirely free from scab after only twice using it, although these rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Parana, 5th

Party of order sure to win. First batch of opposition voters retired protesting; the rest voted quietly.

Victoria, 5th

Splendid triumph. The Racedistas, to avoid ridicule on their paltry numbers, met in the outskirts of the town and protested, although there is not the faintest excuse for their doing so.

Uruguay, 5th

Racedistas knocked into a cocked hat. Here they voted and withdrew protesting. In Concordia they did not vote. At Gualeguay, Gualeguaychu and Nogoya they started a 'mesa' of their own. Immense majority for our side all over the province.

Rosario, 4th

Juez de Paz at Sauce locked up by order of Criminal Judge for putting three pistol bullets into an 'individuo' with whom he had a dispute. Fires among the wheat stacks continue, but the incendiaries cannot be traced.

Valparaiso, 4th

Plenipotentiaries of Costa Rica, Salvador, Guatemala and Colombia were the only ones present at the Congress of Panama on 5th ult, convened by the last named republic. They signed a protocol to the effect that, as there was 'no quorum,' they had better all go home. Carried 'nem con,' and they went.

Montevideo, 5th

Dr Crispo Brander and the apothecary Somoza, had a row in the street. The latter gave the doctor a black eye and then ran away. Steamer Cervantes from Rio searched for arms off Rio, but none were found. Still raining, but wind gone down. Santos certain to be elected by new Chambers.

Uruguay 5th,

C. Hudson
to
Dr. Crespo.

The Racedistas have legally won the elections in an orderly way all over the province. For the future Entrerianos will abandon the path of revolution for victory at the ballotsbox, such as they have won today, thanks to the worthy course of President Roca, who has given us guarantees.

The elected Deputies to Congress are Dr. Onesimo Leguizamon, Dr. Miguel Laurencena, Dr. R. Calderon, Dn. C. Villagra, Dn. Antonio Crespo, Dn. G. F. de la Puente. All are friends and supporters of Gen. Roca.

This is the first free election in Entre Rios, and the province will be well represented in Congress. All well-meaning people rejoice greatly at the result.

Gualeguay 4th.

The provincial police attacked Moran and Espinosa's men near Tala, and after half an hour's fight had to fly. Twenty killed and many wounded on both sides.

Mercedes 5th.

An Irishman, named John Glynn, nineteen years of age, slew John Kelly, his uncle, aged fifty, to-day at the church door, after Mass at 11 o'clock, killing him with one stab in the stomach, which proved fatal. The motives for the murder are not known. Criminal arrested on the spot.

Montevideo, 6th

Subscription for victims of hurricane on 30th. Lagartija killed 6 bulls at his benefit yesterday, and received many presents of jewels and money. Number 6563 won 20,000 pats in Lottery to-day; 9879 won 2000.

THE NATIONAL BANK.

Few things reflect more clearly the general improvement of the Plate than the report of the National Bank, which is now before us. The history of this bank is but a portion of the history of the country itself. We have seen the bank in the dark years of crisis dragged down to the very brink of ruin, with difficulty keeping its doors open, paying no dividend to its shareholders, and its notes ostracised from circulation. Yet in a couple of short years all this has changed, and to-day we find this institution taking the front rank amongst the banks of this country, doing a business with the Interior which no other bank in the Plate enjoys, earning and paying handsome dividends to its shareholders, and its notes holding, the same circulation as gold coin throughout the length and breadth of the Republic. In some of the provinces the National Bank Notes are even preferred to gold coin.

Well indeed does Dr Pacheco, the president of this now flourishing institution, and his board of Directors and every member of the bank staff merit the highest praise for the triumph they have achieved in bringing the bank up to its present splendid position. The bank has paid dividend to its shareholders last year 8½ per cent, and judging by the very splendid returns of its branches, and the almost complete monopoly which the bank holds in the upper provinces, we verily believe that this year the bank will earn and pay to its shareholders 15 per cent dividend.

It must be remembered that the bank possesses immense resources which to the present have not been touched. If within the narrow limits of its previous financial jurisdiction it wiped off so many bad debts, and paid 8½ per cent dividend, how much better will it now stand when all the judicial deposits of the city must be carried to its vaults; its notes convertible at sight will be the great specie circulation in this city, and its deposits, which are now beginning to increase, will under the new order of things swell to figures that will probably surpass even the Provincial Bank.

It must ever be remembered that the National Bank is the National Government Bank. The Government is the largest shareholder, and hence everything that can help the Bank or increase its business will be the strict line of conduct of the National Government. Custom House bills &c. that formerly went to other banks will now only go to the National, and we quite agree with Dr. Pacheco and his board, that in view of the vast banking business within its legitimate jurisdiction its capital is altogether too small and too limited. On the opening of Congress steps should be at once taken to double its capital, and the new shares issued need in nothing weigh on the market, since in all probability they will all be placed in London, where the concern is now beginning to be known and thought much of. Managed as this Bank is at present is, its vicissitudes form a species of reserve capital, since really nothing could be more chequered than its history. There were years the bank did not make one brass farthing—and last year its profits reached 819,000 patacons.

There were years, its branches in the Interior did not cover their expenses, and last year some of these branches made 100 per cent profit on their capital. There were years when the bank's notes could not be even sold in our exchange shops, and now its notes in circulation reach 2,410,808 pats We have passed the bank door when not a soul was to be seen, about the place, and for the commerce of this city it might just as well have been closed up as not: no depositors, no cheques, no accounts current: the grocery shop at Moore's corner had more signs of trade and vitality than the bank of the nation, and yet how all this has changed; we find that last year the deposits and accounts current amounted to 42,256,931 pats The drafts from the Interior have nearly doubled in a single year:—

In 1880.... 3.806 223 pats
In 1881.... 7.892,096 "

These figures alone show the business and trade which this bank now controls, and this business will doubtless each year progress in the same ratio, because it is not so much the bank as the very Interior itself is working up, and the trade current of the Interior must necessarily run through this bank.

This National Bank report is indeed one of our brightest political chapters; it tells more than ever a President's Message of how the affairs of the country progress, and Dr. Pacheco who so manfully stood by this bank in all its troubles has at last the satisfaction too see his faith, his hope and his very able management culminate in a triumph of which the very country itself feels proud.

THE ENTRE RIANO ELECTIONS.

There is nothing half so popular in Entre Rios as revolution. Since the day when poor Urquiza was murdered the Entre Riano has been fighting against Governments. Any 'caudillo' who raises the banner of civil war is sure to be surrounded with the same elements that enabled Lopez Jordan to resist the National Government during so many years and cost the National Treasury $t.20,000,000. Revolution in Entre Rios means sport and amusement for several thousand 'gauchos,' who fight like the old Greeks before Troy; everybody fights for himself; the taking of some wretched village means bankruptcy to all the 'pulperos' and a week's feasting and guitar-playing. This free-fighting spirit is general and comes to the surface whenever there is a chance for a fray in some electioneering squabble. When remingtons are at a premium they attach spears to the poles they use for their carretas, and with these primaeval weapons they gallantly gallop up against squares of National and Provincial infantry. These men are the right stuff for the army, but they constitute very deficient elements for insuring peace order and law. The 'gaucho' will remain the gaucho to the end of the chapter, the real Don Quijote, to play into the hands of every ambitious caudillo who can wield a 'facon,' and play upon the strings of the political guitar.

Entre Rios at present is absorbed by several popular men: Febre, Racedo, Urquiza and Ayala. Discord amongst these most potent and grave means simply revolution, with its usual hetacomb of some thousand or more gauchos. As usual, the man who commands most votes remains quiet, preaches order and relies upon the respective authorities to maintain peace and free elections. But those who are in a minority immediately seize the Remington, invoke revolution, loss of liberty, Government ukases, and get up a row. They foresee the results; they cannot get into power by free voting, and there is a chance of getting something out of the troubled waters: they have nothing to lose, everything to gain, and, therefore, there is nothing like a lucky revolution to frighten the people and the Government, and perhaps thereby get up a compromise. At all events, if they fail, these unlucky fellows can always appeal to Congress, when 'a litany of wrongs, murder, taxation and dictatorial abuse is brought to the front, the election annulled, new ones ordered, and the voting begins again. By the time all this is brought to a

close the respectable electors get sick of voting, abandon any idea of going to the poll, and the rowdies have the field to themselves: intervention follows and the matter is settled. All parties growl, because none are satisfied, and the newspapers abuse the National Government.

This is the history of most provincial revolutions in the Argentine Republic, arising from the fact that the population is so sparse as to permit an individual influence in revolutionary matters, from the gaucho to the general; they are all 'compadres,' smoke cigarrettes and drink caña together. Public opinion there is none, and specially in Entre Rios, where everybody is more or less distantly related to the parties at war in the present moment. There is only one distant remedy—increase of population. At present the National Government must let them fight amongst themselves until intervention must close the matter. Another remedy might be found, but it knocks the constitution and federal principles on the head, and that is to abolish all the provincial Governments, Legislatures and Cabinets. But this idea of an unitarian republic is all a dream at the best, as the interests of all the provincianos are staked and provincial amour-propre is severely wounded. It would be the signal for an abolition of salaries and Government immunities, of legislative titles and of ministerial carriages; it would be the downfall of the paraphernalia that stem the progress of the country and stifly industry with taxation in order to keep up the expensive train.

EDITOR'S TABLE

The Royal Mail steamer Guadiana sailed yesterday. Many friends accompanied Mr and Mrs Smithers and Mr and Mrs Duguid to the pier and on board. We wish the travellers a pleasant voyage home.

The Lamport & Holt liner Galileo arrived yesterday at Montevideo. Mails this morning; dates to the 14th ult; splendid passage.

Sunday was an electioneering day. Here in the capital everything went off as smoothly as at a high afternoon tea, not even a stick flourished; but they are made of sterner stuff in Entre Rios, where there was a deal of excitement and a stand-up fight at Tala, where the Irish party, led by Moran, thrashed the police to the tune of 20 killed and ever so many wounded—at least so the telegrams says: but we trust the casualties are exaggerated. It is hard to say which side has won; Racedistas and Febristas both claim the victory. We give the telegrams from both sides in another column. In this city Messrs N A Calvo, M N Viola, J A Costa, E N Paz and E J Balza were elected Deputies to Congress.

The French St. Cloud fetes closed on Sunday. The throng was immense, and not a man present, old or young, had a copper left in his pocket when he got home. The sum total of the receipts is very large.

The new Corps Diplomatique of the Argentine Republic is a formidable one. Here it is, as announced by decree yesterday:—

London
Minister: Dr M A Garcia, Secretary: L B Tamini.

Paris
Minister: M Balcarce, Secretary: same as at present.

Rome
Minister: Dr A del Viso, Secretary: B Montero.

Washington
Minister: Dr Luis Dominguez, Secretary: same as at present.

Rio
Minister: Dr Uriburu, (now in Lima), Secretary: Dr J Carrie.

Vienna and Berlin
Minister: Dr M Cane (now in Colombia), Secretary: A Blancas.

Santiago
Minister: Dr Alberdi, Secretary; A Arroyo.

Lima
Minister: J Villegas, (now in Montevideo).

Montevideo
Minister: E B Moreno

Our readers in general, and the doctors in particular, are invited to read a chapter in our supplemental sheet, giving the account of one of the most diabolical attempts on record to strangle a doctor in Berlin. Things are coming to a pretty pass in Europe when human ingenuity takes such a turn as the case in question points to. We believe that in the annals of crime there is nothing to beat this case.

Ling Look, who is so well known to our readers in the Plate, is at present a prisoner in Brighton, charged with the murder of a boy by the firing off of the cannon. The accident was a truly terrible one. The papers gives the following:—

"The prisoner was described on the charge-sheet as Ally Ling Look, aged 34, and was dressed in ordinary English attire, with his hair plaited according to the fashion o his native country. The court was crowded. In opening the case the Town Clerk described the occurrence, and said he proposed only to call sufficient evidence to justify a remand. The stipendiary inquired if that had been the first time the performance had taken place? Mr. Beard said it had been performed twice before in the town, and also in various other towns. The deceased's father, who is a house-painter living in Foundry-street, gave evidence as to the identity of his son. A lad named Henry Stockley was next called. He said he knew deceased, and was with him at the hall on Monday night. He was sitting next to him in the gallery, on his right hand, in the front row. He saw prisoner there and witnessed the feat. The cannon produced was supported on a sword (also produced), which was placed down the prisoner's throat. In that position the cannon was fired by a female. Before it was fired the prisoner waved his hand as if to tell them to keep back. When the cannon was fired the boy fell back on his side. Some of the people called out at first that it was eggs which had been fired from the cannon. They then found that the top of the boy's head had been blown off and his brains scattered about. Dr. Edgar Barrett stated that he was called to the hall and saw the boy Smythe lying in the gallery quite dead. His head was completely shattered, the frontal bones were broken, and the two parietal bones blown away: the base of the skull was cracked and the cavity almost empty. Close by he found a pellet of paper, which he produced, about the size of a hen's egg. It was black and covered with brains, as if it had struck the deceased's head and gone through the brain. This was all the evidence offered.—Mr. Beard for the prisoner, said no one deplored the catastrophe more than he did. The trick had been performed in this country and abroad for many years without any such catastrophe.—The prisoner was then remanded till Monday, bail being refused."

We learn by the mails that the Suez Canal is to be lighted by Electricity, so as to enable the vessels to sail up and down during the night. We believe they will soon light up the Pyramids with Brush's electric candles.

The 'fete champetre' at Dr Irigoyen's estancia on Sunday was splendid. President Roca, General Osborn, Count and Countess Amelot, Dean Dillon, Dr Alvear, Da Miguel Duggan, Dr Pellegrini and in all 80 ladies and gentlemen were present and had a delightful day of it.

The Commission named by the Society for the Prevention of Cruelty to Animals waited yesterday on the Minister of the Interior. It comprised the following gentlemen: Mr Junor, Dr Webster, and Mr Wm. T. Livingston. The Minister stated to the Commision that they could depend on his support in every way. This is good news for the poor horses.

Those of our subscribers who happen to be in love should not forget that next Tuesday will be St. Valentine's Day. There are nice assortments of love missives to be had at all the English libraries.

Consul Baker has kindly sent us a Blue Book published by the U. S. Government, on the Cotton Trade of the World. It contains a most interesting report by him on the cotton goods trade in this country, and the Department pays him the high compliment of saying that it is the best of all the reports on the subject sent in by the Consular Corps. This is not the first time that Mr. Baker has been justly complimented from headquarters. We will extract from the report to-morrow.

An old Independence warrior named John Guerra (what an appropriate name for a soldier!) died in this city on Saturday, aged 102.

Workmen were hard at it on Sunday on the inside of the Exhibition building, but not outside. The general opinion is that it will be impossible to open the Show properly on the 15th, but the Industrial Club men seem bent on trying it.

An engineer friend has promised us a communication on the question of the carts destroying the tramway rails. The matter was before the House of Commons last session, and the most eminent engineers in England, Germany and France were examined; they all agreed that the present tram gauge is too wide, and that the metre gauge must be adopted; they also condemn horse traction and say that mechanical motors must be substituted for it.

We were fairly enveloped in current literature yesterday, and the *Standard* library wae enriched by the following contributions:—'Versos de A Navarro Viola; Demografia Argentina, by Dr Emilio Coni; Boletin del Instituto Geografica, by Dr Zeballos, and Anales de la Sociedad Rural by half a dozen contributors. We return our best thanks for all.

A telegram from Patagones warns us to stand by for Indians again. It appears that the Indians who were driven into Chile have returned and are again on the war path, with our old friend Shaun Hueque at their head. Next moon there will probably be a foray.

We feel much pleasure in saluting Mr William A Fitzsimon, Vice Rector of the National College in Corrientes, who is on a visit to the metropolis.

There is a decided postal squeeze in the South of the province, owing to some delay in paying the subventions to the diligence lines, the result being that the latter refuse to carry the mails in some districts. This is worse than unpleasant.

Bahia Blanca is going in for Pipe Water, to be taken from the Naposta. The engineers who made the survey for the extension of the Southern Railway are being consulted on the subject.

The new Cattle Marking Law hangs fire in the most significant manner. In the flourishing partido of Chivilcoy only five marks have been 'renewed' up to the present.

Good news for spinsters. There are fifty per cent more men than women in Canada. The Marquis of Lorne says it, and any girl, from 15 to 50, can change her name the moment she lands, and have her choice of a dozen suitors.

Two suicides were reported yesterday—one a married man named Sartori, living in Calle Temple, the other an Italian named Payol, in Calle Piedras. The increase of suicide here of late is simply appalling.

An awful affair occurred at Mercedes on Sunday night. During a wizard's performance there a young Spaniard was asked by him to fire a carbine, the ball from which he (the wizard) would catch on a plate. The young man fired, and fell dead with half his skull blown away. A terrible scene of consternation ensued, and the wizard was at once arrested. This is a second edition of the Ling Look business.

THE PASSIONIST FATHERS.

Buenos Aires, Feb. 5, 1882.

To the Editor af the *Standard*.

Sir,

The praiseworthy example initiated by the 250 female domestics for the purpose of retaining the Passionist Fathers in this city will, I think, be a stimulus to ensure the co-operation of another large class of helpers, namely, those who, like myself, come under the designation of 'dependientes,' who would cheerfully pledge themselves to devote a tithe of their 'sueldos' for the same good work, in the full confidence that the wealthy estancieros will not permit this 'means of grace' to depart from amongst us.

I can testify to very many cases of beneficial influence resulting from the Mission Services held in the Chapel at San Roque by these Fathers, and as a feeble manifestation of gratitude am willing to enrol my name with other 'dependientes' who may be desirous of furthering the wishes of their 250 Irish sisters.

Yours truly,
Paterfamilias.

ON 'CHANGE.

Feb. 6th

Patacons	25.05
Cedulas A	99⅝
Cedulas E	85
National Bank Shares	128½

The Bolsa opened this morning on a very quiet market. Gold is very flat, and heavy quantities were freely offered at 25,05, which seem to foreshadow a fall in the present insignificant premium. Telegrams have come to hand confirming the London advices we published on Sunday morning. The money markets of London and Paris are improving, and the crash is mainly a Bourse catastrophe.

There was a rumor on Change to-day to the effect that a very favorable financial operation is being contemplated in connection with the Provincial Bank. Coming events cast their shadows before, and there is an intention of placing the Provincial Bank on the same footing here as the Bank of England in London. The Bank is to undertake the service of the National Debt, and the National Government is to pay a commission to the establishment. In fact it looks like an account current of the Bank with the Government. The contemplated measure, if carried out, will be a very favorable one to the Bank, at the same time that it somewhat reflects an uniformity of action between both the Provincial and National Governments. This rumor was the talk of the market and looked on with favor in general.

The situation of the Nat. Bank share market is bullish, but there is a heavy feeling in the stock. Another newspaper has now joined in the attacks against the Bank: these criticisms are now of a personal flavor. The *Nacional* attacked the report of the Bank, but the *Pampa* finds fault with the Directors. The market does not pay much attention to these remarks and they are of little use in the hands of the bears. They will be a further stimulant for the Directors to increase the operations of the Bank. With the present limited capital the Bank can operate with advantage and and refute the attacks in the newspapers with facts. With regard to the judicial deposits the bulls spread a rumour that all the funds were to be henceforward deposited in the vaults of the Nat. Bank; the bears had a ready answer: the old deposits remain in the Provincial Bank, and the deposit of the new ones is left to the discrimination of the parties interested; they may be deposited in the Provincial or National Banks, to suit conveniences. The fact of the stamp difficulty having been settled points to this policy

A large number of Bank Shares were sold to-day for the end of the month. Rates opened at 129, rose to 129½, fell to 128⅝ and closed firm at 129. Cash operations were very insignificant, only 30 shares sold at 128⅝.

Cedulas look weak, series E gave way 1 o/o to-day, falling to 85. Series A maintains itself at 99½ and rose to 99⅝. The sales to-day were more important than in general.

The sales at the ring were—
Gold—
For cash 39,500 at 25.05
For Feb. 7th 10,500 at 25.05
For Feb. 8th 10,000 25.05
Sales, 60,000.
Cedulas—
For cash E 6,300 86-85
For cash A 25,600 99½-⅝
For Feb. 9th E 10,000 85
For Feb. 28th E 10,000 85
For Feb. 28th A 20,000 99½
Sales, 71,900.
Nat. Bank Shares—
For cash 30 shares 128½
For Feb. 28th 5,610 shares 129-½-½-128¾ to 12

Sales, 5,640.

The Provincial Bank received telegram from London this morning showing an improvement in Argentine stocks; the following are London Saturday night's quotations:—

Riestra Loan	96½
Argent. Publ. Works 1871.	96
Argentine Railway Loan	90¾
Do (Hard Dol.) 1863-67	84½
B. Aires 6 o/o 1870	99
Buenos Aires, 1873	95

Money market London and Paris improving.

It was rumored on Change amongst National Bank speculators that to-day the removal of judicial deposits from Provincial to National Bank began, but we for our part hardly credit any such report. All new judicial deposits of course go to the National Bank, but those at present in the Provincial Bank represent 150 millions currency; all this money is out in discounts in the market and not in the Bank. It would therefore be a most injurious step towards the market to touch those deposits, since it would frightfully tighten money, and we feel quite sure the Minister and Bank Directors and Judges thoroughly understand the situation; the rumor on the Bolsa we therefore attribute merely to speculation.

The fine R.M.S. Guadiana left to-day with mails for Europe.

The Provincial Bank discounted to-day four millions currency.

There are many buyers of Hard Dollar Bonds in the market, but holders ask 87-88 per cent; rates in London are quoted 84½, and for shipment to London they are only worth 82½ here.

The Olivetto is loading for Havre.

The Braunschwig is expected to-morrow in Montevideo.

The Galileo arrived to-day in Montevideo with dates to the 14th from Liverpool; she has made a very fast trip.

The St. Cloud fete gave on Sunday $110,000; profits expected to exceed $200,000, all expenses paid.

In exchange there is little doing, rates 49⅝. Discounts are becoming more difficult every day; bills were done to-day at 9 o/o per annum in paper, 7 to 7½ o/o in gold.

There was no further news from Antwerp to-day. The arrivals in the Once this morning amounted to 10,000 ar. Some good wools were sold at firm prices, but much wool is going to deposit.

It was rumored to-day that the National Government would nominate the new Ministers for the vacant portfolios. The candidates are many, but nobody seems to know who will be named.

Messrs Baltar and Quesada will sell off by auction to-morrow four square leagues of land in a place called Indios de Pinoen; although none may know the place, we feel sure that these camps will sell well; the upset price is $40,000 m/c per square league. The camps are situated in the Lote No. 709. The sales of land are increasing every day.

The Exhibition building, we may say, is now ready; if the different committees of exhibitors are up to the mark the Exhibition will be ready for the 15th. Brazil, we hear, will make a magnificent show, whilst the Argentine Parque will startle many; persons who have seen the machinery turned out by the Parque, say that it is so perfect as not to be distinguished from Europe or North American make; the caunons are also very fine, and will attract much attention. The machines are already being fixed and put up in their locales, and they will be by far the most interesting part of the exhibition. The rails to the Western Railway have already been laid down, and the building is full of workmen day and night. We must acknowledge that the architect has done wonders, when one meditates that the place was blown down only three months ago. The men work day and night, Sundays and work days, and if the 'comisiones' know their business the inauguration will be celebrated on the date fixed.

The returns of the Western Railway for the month of January amount to 5,000,000. For the first time in the history of the railway has a month given such splendid results, the traffic on the line has been stupendous, and some evenings we have seen trains of 150 waggons, covering eight squares of rails. The new Creuzot engines, ordered to draw these immense trains, give the most satisfactory results.

Messrs Baltar & Quesada will sell off by auction to-morrow Vice-President Madero's fine residence in the Calle Reconquista No. 195; the upset price is $f 30,000, it is worth much more.

At afterhours the National Bank Shares rose to 129½. Some 500 shares were sold: but prices collapsed and fell to 128⅛; the market closes at 129 for end of the month. The business does not amount to much, In gold and Cedulas nothing.

One of the new dredges, lately ordered in London for the Riachuelo Works, arrived yesterday; the remainder are expected to arrive soon.

The Sales at afterhours were—
Gold—
For cash 5,000 at 25.05
Cedulas—
For cash E 3,000 at 85
For cash A 5,000 at 99⅝
For Feb. 28th 5,000 85
National Bank Shares—
For Feb. 28th 500 shares 129½-129 buyer.

The Spanish man-of-war Consuelo has been successfully raised in Montevideo. She suffered no injuries whatever.

Captains of ships are notified that the pontoon at Punta Indio has dragged her anchors three miles, and is, therefore, liable to lead navigators astray; the pontoon on the Banco Chico is five miles away from her former anchorage also.

The Italian barque Due Fratelli Massoni has been chartered in Montevideo to load salted hides in Paysandu for orders; rates supposed to be 32s 6d and 5 c/o.

The *Prensa*, in an able article on the monetary circulation of the Argentine Republic, calculates same as follows:—

Paper circulation	$f.39,960,000
Metallic circulation	16,355,000
Total	$f.56,315,000

The paper circulation is distributed as follows:

National Bank		$f. 1,800,000
B. Aires Provincial Bank		35,000,000
Cordoba	do	1,000,000
Sta. Fe	do	1,060,000
Mendoza	do	310,000
Total of fiscal circulation		$f.39,170,000
Private banks		790,000
		$f.39,960,000

Specie—
B. Aires—Bank, and National Mint $f.10,000,000
Provinces—Banks 6,365,000
Total of specie $f.16,365,000

We doubt the accuracy of the specie figures, and the *Prensa* would highly benefit the public by giving the figures of specie in detail, as deposited in the Banks, and in the hands of the Government.

Telegrams from Montevideo announce the following sales:—
2,000 hides from Legrande, reserved rates.
5,000 American hides at 76 rls.
2,000 potro hides, 33 lbs., 17
3,000 kegs of kerosene at 21 dispatched.

It is rumoured in banking circles that the Italian Bank has received an offer of 100,000 pats profit for their new bank building in Calle Piedad, and which offer was declined by the Directors. The offer, we understand, was made by Mr Smithers for the English Bank of the River Plate. In a few months the Italian Bank will move into its new quarters, and the present establishment will be vacated, to be occupied by the English Bank. We note that Sr Lavarello has been elected Director to succeed Mr Schiaffino, who retires. From the half year's earnings the Directors have put aside 40,000 pats to reserve, which fund now reaches 207,000 pats. The Bank is worked on the smallest capital of all our banks, 1½ million pats., its deposits we see reach 7,000,000, its expenses are small, and its business each day growing.

The 'auto' of bankruptcy on Mr S Roi has been removed by Judge Ortiz, owing to compliance of payment to the creditors.

The Secretary of the Tribunal of Commerce has handed to the Justices of the Province 664 'espedientes', belonging to its jurisdiction. Meantime the judicial Courts are receiving the suits passed to them by the Province.

The Justice of Commerce, Dr Garcia, has refused to give orders of execution and of embargo for demands on protested Municipal Bills.

Our Montevidean colleagues have their columns full of disasters in the port. We hear that the hurricane was so great that the spray of the waves touched the yards of the ocean steamers, and captains inform us that they seldom experienced such a sea in the Atlantic. Every steamer in the harbor dragged her anchors, and from the 'azoteas' of Montevideo thousands of people witnessed the disasters in the harbor.

To-morrow another Provincial Land auction will take place; the lands are situated in the district of Tres Arroyos. 1,250 hectareas will be sold at the upset price of 20 m/c per hectare.

Mr Shepherd leaves to-day for Chili, he will probably return soon, as he proposes opening new trade relations with this country.

With regard to the general course of business in the United States, the following is from *Bradstreet's Journal* of the 17th inst:—

"One of the most gratifying trade indications is the continued reluctance of the general public to take part in stock speculations. As we have recorded from week to week, the commission brokers are so nearly idle that rentals are almost a charge upon the invested capital. Aside from the fact that funds have been absorbed in legitimate business, it is very plain that the public persistently keep away from the street on account of the fear that they are betting against the tricks of the street. Men are willing to speculate on the state of the country, the condition of the crops, but they shun, so far as possible, the devices of the leading operators. Beyond this, it is reasonable to ask whether the commercial classes are not developing a prescience and a conservative spirit hitherto unknown and well calculated to check extreme speculation before the situation becomes ripe for a financial crisis. The cautious spirit manifested in leading trades since the spring of 1880 testifies to the soundness of this view. Of course, it is not meant that the trading community have come into the possession of some sort of a barometer which will tell just when to apply the brake. Indeed, it is not to be expected that an entire community can attain such a degree of wisdom, but that some progress has been made on the part of traders, manufacturers, and bankers, in the direction of more conservative methods, seems certain. To be sure, railway construction is going on as rapidly as in the years preceding 1873, and the indications are that the advance for the coming year will be still greater. This is the forbidding feature of the general business situation, and it may be taken for granted that the proximate cause of the next, as of the last, crisis will be the too rapid and premature absorption of capital in non-dividend paying railway stocks and bonds. So far, however, as it is now possible to divine, the near future business is in an extremely satisfactory condition, and bright promises are held out for an extended and profitable spring trade."

We clip the following from the *Anglo Brazilian Times* of Jan. 24th:—

"Exchange—Up to the 16th inst., at noon, Banks continued to draw at 21d. They then came out at 20⅞, retiring later in the day to 20⅝. On the 17th they further retired to 20⅜. There not being any great demand at this last rate, concessions are understood now to be made, 20⅜ being again the rate for large sums, although the official bank rate remain at 20⅝.

"Private paper has been scarce and passed at rates from 21⅛ on the 16th to 20⅝ on the 18th and is now offered at 20⅝.

"On France rates have been for banks 453 to 461 reis per franc, closing at 458 reis. Private paper has been negotiated at 447 to 454 reis.

"The scarcity of money has had an influence and the present firmness of our exchange market is largely due to this cause. Otherwise with the very unfavourable news for coffee from consuming markets, our market might have been very flat.

"The board of brokers' report of business from January 1st to 16th was £482,951 at 21d to 21d. Fr. 1·177,465 at 438 to 453 reis. M 56,376 at 548 to 556 reis.

"The extreme rates from Jan. 7 to 22 were; London..... 21½ to 21⅝ per $ at 90 days. Paris..... 447 to 461 reis per fr. do. Hamburg.. 552 to 570 reis per rm. do. New York. 2:380 to 2:440 per dollar at 3 d/s.

"The increase of the loss in exchange denotes an abnormal situation, annually aggravating, and it should arouse the attention of the powers of the State.

"Among the various causes of the almost constant lowness of exchange the chief is the depreciating of our currency, which has no power to retract or expand in accordance with the market needs, and is liable to notable depreciations whenever our crops are small or the prices of out chief export staples are low.

"The reduction of our paper money, until the establishment of a bank of issue on metallic basis be rendered possible, is one of our greatest needs.

"What seems to be necessary, is the inclusion in the loan we must soon contract, for the funding of the debt arising from railways and other improvements, of the sum required to carry into effect the annual reductions (of 2 o/o) promised in the decree of April 16th 1878 which authorized the emission of 40,000 mil reis.

"And we must continue this effort systematically until we attain the end in view.

"This operation, while exerting a beneficial influence on the exchange market, would hasten the opportunity for the conversion of our internal debt, whose interest might thus be reduced and applied to amortizations, to the great advantage of the State and of the bondholders.

Four Rooms. Splendid Woodwork
Base for sale incredibly low
20,000 dollars currency
On Sunday February 12th
At 2 p.m. sharp

We shall sell for the highest bid, over and above the stipulated base, for cash this beautiful house in the picturesque town of San Martin, only three squares from the Plaza and the Station, and comprising four fine rooms, kitchen, well, etc, all surrounded by footpath and so all on high ground, 20 206|1000 metres frontage by 43 300|1000 metres deep.

The house is of modern construction and well finished, being very suitable for a small family not only for its proximity to the Capital, but also for its position in the rising town of San Martin, and the great advantage of being so near the plaza, and also the station.

The title deeds are in perfect order, and can be examined at our house, San Martin 51.

In Our House,
51—San Martin—51
On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp:—Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with zinc roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zeuone, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

The Railway to Bahia Blanca will traverse the Camp
Half Cash, Half at 6 months.
Permanent Water
BASE OF SALE $111 M|C PER HECTAREA
On Wednesday, Feb. 8th
At 3 p.m.
In our mart, San Martin 51

We shall sell by order and for account of proprietor, for the highest bid over and above the mentioned basis, a piece of land situated in the district of Juarez, and known as the Fortin de las Saladas. Camp which was selected by Gen. Rivas for wintering cavalry horses, and which the Indians previously made use of for the same purpose. We remind the public of these facts in order that they may be able to form an accurate idea of the excellent quality and abundance of the pastures on the camp.

The lake called Las Saladas is about four squares by 5, contains potable water supplied from permanent springs. Situated on the borders of the camp is the lake, La Totora, also an important sheet of water. This camp adjoins the properties of Messrs Santa Marima, Mariano Roldan, Zabala Bernardo, Arriaga, Jose Maria Nuñez, Pedro Rivas and Leloir.

We call attention to the very low valuation put on the land; the adjoining land called La Totora was sold in 1876 for a higher price than the basis of this sale, and we also remind the public of the late sale of the Lomas de Lara which realized $1,050,000 m|c per league.

The bus which leaves Azul for Bahia Blanca stops at La Gloria which is on Mr Santa Marima's camp and adjoining the land which we shall auction.

There are still due to Government 4 bills of $20,000 m|c each.

For plans and further details apply at our mart 51 San Martin.

At our mart, No. 51 San Martin, on Friday, February 17th., at 3 p.m., we shall sell to the highest bidder per cash by order and per account of owner, Commander Rivas, SIX LEAGUES OF CAMP, considered to be the best offered up to present, the tract having been selected personally by Commander Rivas assisted by his military engineer.

There is permanent water on the land, and the class of grasses is splendid.

The adjoining proprietors are Messrs. Atalliva Roca, General Racedo, Cascallares, C.E., and Col. Racedo.

Every information will be found in the *Tribuna Nacional* of December 26th, 27th, and 28th, written by the National Commissioner.

Base of sale 40,000 m|c per League.
On Tuesday, February 7th
At 3 p.m.

We shall sell in our mart, San Martin 51, for the highest bid over and above the stipulated base, four leagues of exceptionally good camp situated near the second frontier line, where the encampment of Fincen's Indians used to be, and which were purchased by the present proprietor by the advice of Col Godoy Commander Norris, Spikeman and other officers of the army.

The lot appears in the map with the name of Carlos Uricste and the next adjoining neighbours are Messrs Berro, Drysdale, M C Rodriguez and N M Auld.

The camp is in every sense excellent, it having been stocked for many years with cattle and mares while Pincen and his tribe resided there and on which camp he was captured by Gen. Villegas.

On Friday February 10th.
At 2 p.m.

At our mart, we will sell the above magnificent camp, for the highest bid over and above the stipulated base. The land comprises 4 leagues, of which two thirds are on the bank of the Sauce Chico, which always provides an unlimited supply of water.

The class of camp is unsurpassed.

The river divides it from the important establishment of Mr Tornquist.

Lands alongside have recently been sold at from 170,000 to 180,000 m|c per league.

The conditions of sale are half cash, and half in 5 years time, the camp being mortgaged for amount.

The railway will pass through the land.

Detalle de las suertes num. 4 serie A Departamento Rio Seco, y los num. 7 serie B y num. 8 serie A Departamento de Tulumba.

La primera esta situada en la Pedania de la Candelaria; como a 20 leguas al Sud Este de la Villa Maria, linda al Norte y Este con terrenos fiscales y al Oeste con la suerte N. 3. Este campo es bueno, para todas clases de haciendas y sus pastos buenos y abundantes, tiene montes y algunas isletas de Chañares, las aguas a 2 varas en su mayor hondura. La segunda esta situada como 2 leguas al Nor Este del puesto de Fierro, linda al Norte con la suerte num. 4 espresada mas arriba.

Este campo es inmejorable, sus pastos superiores para toda clase de hacienda, tiene monte y el agua esta a dos varas; y la tercera esta situada en la Pedania de Mercedes, linda al Sud con la suerte num. 7 y a los otros rumbos con terrenos fiscales.

Este campo es de buenos pastos para toda clase de hacienda. las aguas alcanzan a 2 varas segun consta de los espedientes que existen en el archivo de este Departamento a que en caso necesario me refiero, en fe de lo cual firmo la presente en Cordoba a 27 de Enero de 1882.

Por autorizacion:

A MURDERER'S STRATAGEM.

Berlin, Dec. 26th.

A new system of garroting has been invented here by a most dangerous criminal of the name of Wilke, who, fortunately, is safe in the hands of the police. On Thursday last two men, conscience-stricken, presented themselves before the authorities, accusing themselves of having conspired with a locksmith (the man Wilke), to hire furnished rooms in different parts of the town for the purpose of extorting money in the following manner. One of them was go to bed pretending to be ill, and send for a doctor. As soon as the physician arrived and bent over the bed, an iron collar of a special contrivance, hid beneath the counterpane was to be applied to his neck until he had signed a bill of exchange; then he was to be strangled and thrown into a canal which was close at hand. Wilke had devoted much ingenuity to the construction of this instrument, which they described as something like a pair of tongs or pincers fixed on the end of a long iron tube, with a winch at the bottom, by means of which the tongs could be made to close as tight as one liked. The peculiar virtue of this nefarious invention was to consist in preventing the victim from crying for help by immediately depriving him of the power of utterance. To make matters still surer, Wilke had also constructed two steel traps for the victim's feet. The conspirators had begun by hiring a room at No. 59, Elisabeth-Ufer, where the Schiffahrts-Kanal has an unusual width, and would facilitate the disposal of dead bodies. That very evening, the penitent accomplices declared, had been agreed upon for committing the first murder, and Dr Lehrs, living close by on the Kaiser-Franz-Grenadier-Platz, was selected as the first victim.

A soon as this confession had been made, policemen were sent to the house mentioned, where they were told that a man who pretenned to be employed at the Government Office for Weights and Measures had, a few days ago, hired a room and paid a fortnight's rent in advance, but that he had not shown himself since; he had however, sent a trunk into his room the day before. The directory having been referred to, and showing that no person of the name of Wilke was employed at the office in question, the constables proceeded to open the trunk, in which they found two mantraps and all the component parts of a garroting machine. The trunk was carefully reclosed, and the landlady warned not to say a word about the visit. An agreement was then come to between the police and Wilke's two accomplices that the latter should at first assist their comrade in carrying out his diabolical plan, and only turn round upon him when the victim's life was in danger. Several constables were concealed in a neighbouring room, and at seven Wilke appeared, entered his bed-room with his confederates, went to bed, and sent for Dr. Lehrs. Instead of the latter, a policeman came in disguise, and inquired after Wilke's health. The ruffian at once sprang up, and applied his pincers to the pseudo physician's neck. The latter, having managed to make Wilke understand that he had very little money about him, he was requested to fill up a cheque. On his refusal Wilke turned the winch, until the victim began to be afraid for his life, and began stamping on the ground. This was the signal for the accomplices to let the constable's hands loose, and for the police to enter and seize the criminal in the very act.

Thus arrested, the scoundrel has since confessed that he intended procuring himself a sum of money, of which he was in great need, by garroting, but denies having had any intention of taking his victim's lite. He pretends that he purposed to abscond with his accomplices after committing the deed and cashing the cheque, leaving the doctor to the chance of being released from his iron collar in course of time. Wilke turns out to be twenty-eight years old, a native of Kustria, and possessing a wife and children, who live separated from him. Some philanthropic fanatics are already making out that he is out of his mind; but it appears that he has been for two years constructing his garroting instrument, and that ever since Dec. 3 has been bent on executing his plan. According to one version he is said to have mentioned the matter to his accomplices ten days ago, and that they immediately acquainted the police with the plan. The latter would not believe in the possibility of such heinous wickedness, until the materials were found in the trunk. Of course, from a certain point of view, every person committing a crime can be said to be out of his mind. But if modern sentimentalism succeeds in saving wretches like Guiteau and Wilke from the punishment of death, by calling them among lunatics, we shall see all sensible men in Europe uniting, like the San Francisco Vigilance Committee, or like the Heilige Vehma of Westphalia, to form secret associations for the purpose of lynching criminals. The instrument is described as being cleverly constructed after a principle derived from a mediaeval instrument of torture contained in the Markische Museum. It is reported that Dr. Langerhaus, member of the Prussian Parliament, was selected to be the second victim, and a member of the Reichstag as the third. The latest report says tkat Wilke watched his accomplice going across the square to Dr. Lehr's house, and that the crime was not attempted in the evening, but during broad daylight

NATIONAL MONETARY TYPE.

To the Editor of the *Standard*

Sir

To ventilate measures that affect the Public welfare is unquestionably the proper province of the Press, and as the public discussion of the various points facilitates their elucidation and tends to correct any error that may grow out of a misinterpretation, it follows that the organs of publicity are in a certain degree bound to give expression to views which may not entirely concur with those previously expressed, so long as this do not affect any question of principle or political consistency.

With this excuse therefore for trespassing on your valuable space we beg leave to offer a few remarks that have been suggested to us by the perusal of the article in today's issue on the new monetary type or legal standard of value in connection with the recent decree of the Government, with a view to correct some false impressions under which the writer would appear to labour.

1st—The decree in question does not add another type to the half a dozen we already have, for the simple reason that up to the present there was but one (that fixed by law of 29th Sept. 1875) and this ceases to exist from the moment when the new one comes into operation. As a consequence there will be no need of any extra column, nor will the books of the nation present the extraordinary feature of being kept in two distinct standards of value.

2d—That the new coinage law was a compromise betw een conflicting opinions may be true, but the assertion that none of these were the offspring of a knowledge of the subject, is hardly warranted.

It should be borne in mind that this law in most essential particulars, including that of the standard of weight and fineness, is identical with the law framed by Dr Plaza, and presented to the Congress of 1879, and we doubt that anyone will deny the framer's acquaintance with his subject.

As to the model to copy, though this will admit of variety of opinions, yet we fail to see what inducement there could be to base our coinage system on that of the U. States.

It is true that by adopting in its entirety the law of 1875 we should have had a standard resembling that of the U. States though not exactly alike, but since we did not care to imitate our Oriental neighbours in having an independent and unique standard, it became merely a question of whom we should chose for our model.

Common sense would again narrow down the subject to this expression 'our standard of value should be based on that of those nations with whom we have most active commercial relations' and this would at once eliminate the United States and the case would remain 'The continent versus G. Britain.'

In this delimna the choice we believe has been a wise one, for the genius of the present age is cosmopolitan, and whatever tends to break down the barriers which divide nations is a step in the right direction.

3rd—The writer of the article appears to believe that it is to a certain extent the duty of the younger American Republics to follow the lead of their big brother, without considering that the genius of the people, the wants of their commercial system and the very progress of the age may be opposed to it.

To follow his lead merely because he is big would be a poor reason, and should apply equally well to China, for instance, which is bigger, and since the fact is that, however worthy of emulation in most particulars, in some the United States is yet behind some of the European States, the wiser course would appear to be to take from each that which may appear most worthy of imitation and not slavishly follow any to the exception of all others.

To the United States this country owes its Republican model, but to France is due an uniform and scientific system of weights and measures, a simple and comprehensible code of laws, and latterly the coinage system that prevails through a great part of Contiuental Europe, and in each and all of these we may be allowed to think that we are ahead of the United States.

Our civilization is not destined to be an exact copy of that of any other country, the elements that go to form our sociability forbidding any such idea, hence let us not endeavour to twist and thwart it, depriving it of that individuality to which we should aspire, as the present germ of a future great and enlightened nation.

ZINGARI CRICKET CLUB.

versus

B. A. J. ATHLETIC SOCIETY.

The return match of the above was played on the 2d inst. at Belgrano and resulted in an easy victory for the Juniors by 55 runs in the first innings. Owing to the lateness of the hour the Z. C. C. could not return to the wickets for their 2nd innings. The play on the winning side was fair all round, but the bowling of the losers was very loose, as the number of wides testifies. It must, however, be admitted that the Zingari was not so well represented as usual, some of their best players being absent.

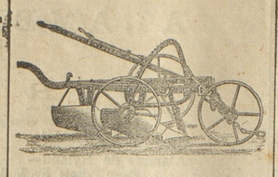
HOWARD'S IMPROVED AMERICAN PLOUGHS

Howard's Double Plough.

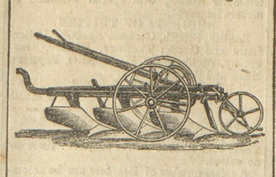


The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts.....
With steel breasts butwithout coulters
Weight 4½ cwt.

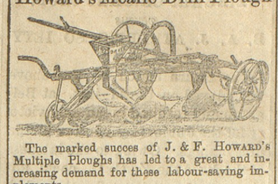
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 6½ cwt.

Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

With steel breasts.....
With steel breasts but without coulters .....
Weigth 6½ cwt.
Maize Drill, £1 15s. extra.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism. Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION.—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ESTABLISHED 1799

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f.2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteo a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f.50 que es el minimum de las que emite el Establecimiento.
